## Education

<b>R.K.S.D. College Kaithal, Affiliated to Kurukshetra University</b> <i>Bachelor of Science in Computer Science (Percentage: 74.4%)</i>	2021 - 2024
<b>R.K.S.D Public School – Kaithal, Haryana</b> <i>Non-Medical 12th (Percentage: 92%)</i>	Kaithal, Haryana
	2020 - 2021
	Kaithal, Haryana

## Technical Skills

**Languages:** Java, SQL, Python, JavaScript, TypeScript, PHP, HTML, C++, C.  
**Technologies:** Next.js, React, Three.js, Express, Prisma, Mongoose, Node.js, Git, Tailwindcss, Nestjs.  
**Databases & Data Stores:** MongoDB, MySQL, PostgreSQL

## Experience

<b>HDS Enterprise</b> <i>SDE Intern (Full Stack Developer)</i>	11/2024 – 03/2025
<ul style="list-style-type: none"><li>Developing robust backend services for the CRM system using NestJS, achieving seamless integration that enhanced data retrieval speeds by 30% and improved overall user satisfaction.</li><li>Developing the CRM Admin Panel using NextJS, ensuring an intuitive, responsive UI with optimized performance.</li><li>Working on integrating push notification services to enhance user engagement within the CRM platform.</li></ul>	
<b>Enablerz Private Limited</b> <i>SDE Intern (Full Stack Developer)</i>	6/2024 – 9/2024

## Projects

<b>Quick Meet</b>   <i>React, Node.js, Socket.io, WebRTC, MongoDB</i>	<ul style="list-style-type: none"><li>QuickMeets is a hassle-free online meeting platform built with the MERN stack, enabling users to join video calls instantly without any login or sign-up. Using WebRTC for real-time video communication and Socket.io for seamless interactions.</li><li>Powered by Express.js, offers fast, secure meetings accessible with just a click. It's perfect for quick check-ins and spontaneous discussions, focusing on simplicity and ease of use.</li></ul>
<b>Swift Send</b>   <i>React, Node.js, Socket.io, WebRTC</i>	<ul style="list-style-type: none"><li>SwiftSend is a peer-to-peer (P2P) file-sharing platform designed for fast, secure, and effortless transfer of large files.</li><li>With its intuitive interface, SwiftSend makes sending large files quick and easy. Users can securely upload, share, and download files directly, providing a fast and seamless P2P file-sharing experience.</li></ul>
<b>Cloud Keep</b>   <i>Next.js, JWT, Tailwindcss, Typescript</i>	<ul style="list-style-type: none"><li>CloudKeep is a free online file storage platform that lets users securely upload, store, and access files from anywhere. Built with Next.js for a fast and optimized user interface, TailwindCSS for responsive styling, and TypeScript for strong typing and improved code quality, it provides a seamless experience.</li><li>With JWT for secure authentication and Google API integration, CloudKeep allows users to easily connect and manage files stored on Google Drive. The platform supports real-time file synchronization and offers a secure, cost-free solution for file management and sharing.</li></ul>

## Achievements & Certifications

**Certification** 2nd position on district zonal level science exhibition in 2024

**Certification** 3rd position on district zonal level science exhibition in 2021.

**Achievement** Solved 500+ leetcode problems.
